Industrial Experience

May-Aug'13 **Summer Intern**, ACCENTURE TECHNOLOGY LABS, San Jose, CA, USA.

Designed and implemented an approach to infer usage constraints from natural language API documents of REST Services. The inferred constraints are directed towards automatic verification and validation of both the REST API as well as clients consuming the API.

Mentors Dr. Kunal Taneja, Dr. Qing Xie

May-Aug'10 **Summer Intern**, US FOOD AND DRUG ADMINISTRATION, SilverSpring, MD, USA.

Aug-Dec'11 Development of a framework to perform efficient retrieval of information from medical adverse event reports using textual mining and display results to the user in a graphical reports. Designed and implemented an approach to infer semantic relationships from Natural Language Text. Designed and implemented a Apache Lucene based generic search framework on principles of semantic text mining. Furthermore, was also responsible to develop the web-based frontend to interact with the system using JSP and JQuery.

Mentors Dr. Raoul Jetley, Dr. Sithu Sudarshan

May-Aug'11 **Summer Intern**, IBM INDIA RESEARCH LABS, Bangalore, India.

Designed and implemented an approach to understand unit test evolution; specifically focusing on how test-repair is performed.

Mentors Dr. Saurabh Sinha, Dr. Suresh Thummalapenta

May'07- **Software Engineer**, HUGHES SYSTIQUE CORPORATION, Gurgaon, India.

Dec'08 Development of network management system to manage satellite base service station components. Designed and implemented SIP-XMPP Gateway for IM compatibility. Performed Integration testing and acceptance testing at the client site.
